

UNDERGROUND FIRE HYDRANT

DN 80 - 100 PN16

07.300

Product description

- Underground fire hydrant for firefighting, drinking water and neutral liquids
- Service temperature from 0°C (excluding frost) to 70°C

Standards

- Designed according to EN 14339 and EN 1074-6
- Flange drilling to EN 1092-2 PN10/16

Tests

All underground hydrants are individually hydrostatically tested according to EN 14339 and EN 1074-6

- Seal 1.1 x PN (in bar); Body: 1.5 x PN (in bar)

Corrosion protection

Hydrant

- Epoxy powder coating RAL 5005 (blue)
- Applied internal and external with a minimum coating thickness of 250 µm
- Potable water approved epoxy coating fusion bonded according DIN 3476-1, EN 14901-1 and GSK (RAL-GZ662) guidelines

Protective box and bonnet

- Red-colored protective box and cover coating RAL 3000
- Interior and exterior coating of the box and cover cover in polyester UV rays

Approvals

- Certified according to EN 14384: Certif certificate ESI-004/2023 (DN80) and certificate ESI-005/2023 (DN100)
- CE mark according to EN 14384: Performance Statement certificate 1328-CPR-0064 (DN80) and certificate 1328-CPR-0099 (DN100)
- ACS Potability Certificate 23 ACC NY 534

Others

- Fucoli-Somepal is registered with the ANPC under No. 197 (under Ordinance 773/2009)
- Fucoli-Somepal is vogal at CT 46/SC2/SG1-1 (hydrant)

Features

- Prepared for firefighting and supplying potable water and neutral liquids.
- Simple installation and absolute security
- Hydrant DN 80 available with different outlets: storz 75 (B), barcelona 70 (UNE 23400), guillemin, threaded, or other
- Hydrant DN 100 available with different outlets: storz 110 (C), barcelona 100 (UNE 23400), guillemin, threaded, or other
- Connection to the pipeline through a mobile flange
- Brass stem washer provides stress fixation and low operating torque
- Stainless steel stem with rolled threads produced by cold rolling process, which keeps the steel structure and increase its mechanical resistance
- Stem sealing with 4 O-rings and a bottom joint in EPDM
- Round EPDM bonnet gasket fixed in a recess ensuring a perfect seal
- Body/bonnet bolts in stainless steel A2 encased and sealed ensuring full corrosion protection
- Protective box with cover and lock for restricted access to authorized services
- Protective box may be buried, but the access cover must remain above ground
- On request possibility of AISI 316L stainless steel spindle, NBR sealings, and other types of outlets for hose coupling are possible
- Cover and protective box available in other colors, customization on the protective box's cover with inscriptions and logo in high relief with minimal quantities.
