

LARGE TOLERANCE MULTIMATERIALS COUPLING FLANGED ADAPTOR 11.3001

DN 40 - 1200 PN10/16

Product description

- Multimaterial coupling for waste water
- Service temperature from 0°C (excluding frost) to 70°C

Standards

- Designed according to EN 14525

Test according

- EN 14525: Positive internal pressure and negative internal

Corrosion protection

- Epoxy powder coating RAL 3011
- Applied internal and external with a minimum coating thickness of 250 µm
- Fusion bonded epoxy coating according EN 14901-1 and GSK (RAL-GZ662) guidelines

Features

- Large tolerance multimaterial coupling flanged adaptor for waste water
- NBR sealing gaskets with incorporated O-rings, which ensures an extremely effective seal and absorb minor imperfections in the pipe
- Tolerance range from 30 to 40 mm that allows great versatility of the product and assembly of pipes with different materials and diameters
- Allow a maximum deflection angle of 3°
- Bolts in steel cl. 8.8, geomet coated
- Allow the connection between piper of ductile iron, steel, uPVC, asbestos cement, glass fibre, among other
- On request possibility of bolts, washers and nuts in stainless steel A2 or A4.
